

FOR YOUR EYES ONLY

FOR YOUR EYES ONLY

For your eyes only was built by Astondoa and launched in 2004. He is from their successful 102 GLX range and her exterior profile features three large lateral windows above her blue hull, with the largest illuminating the spacious salon and dining area.

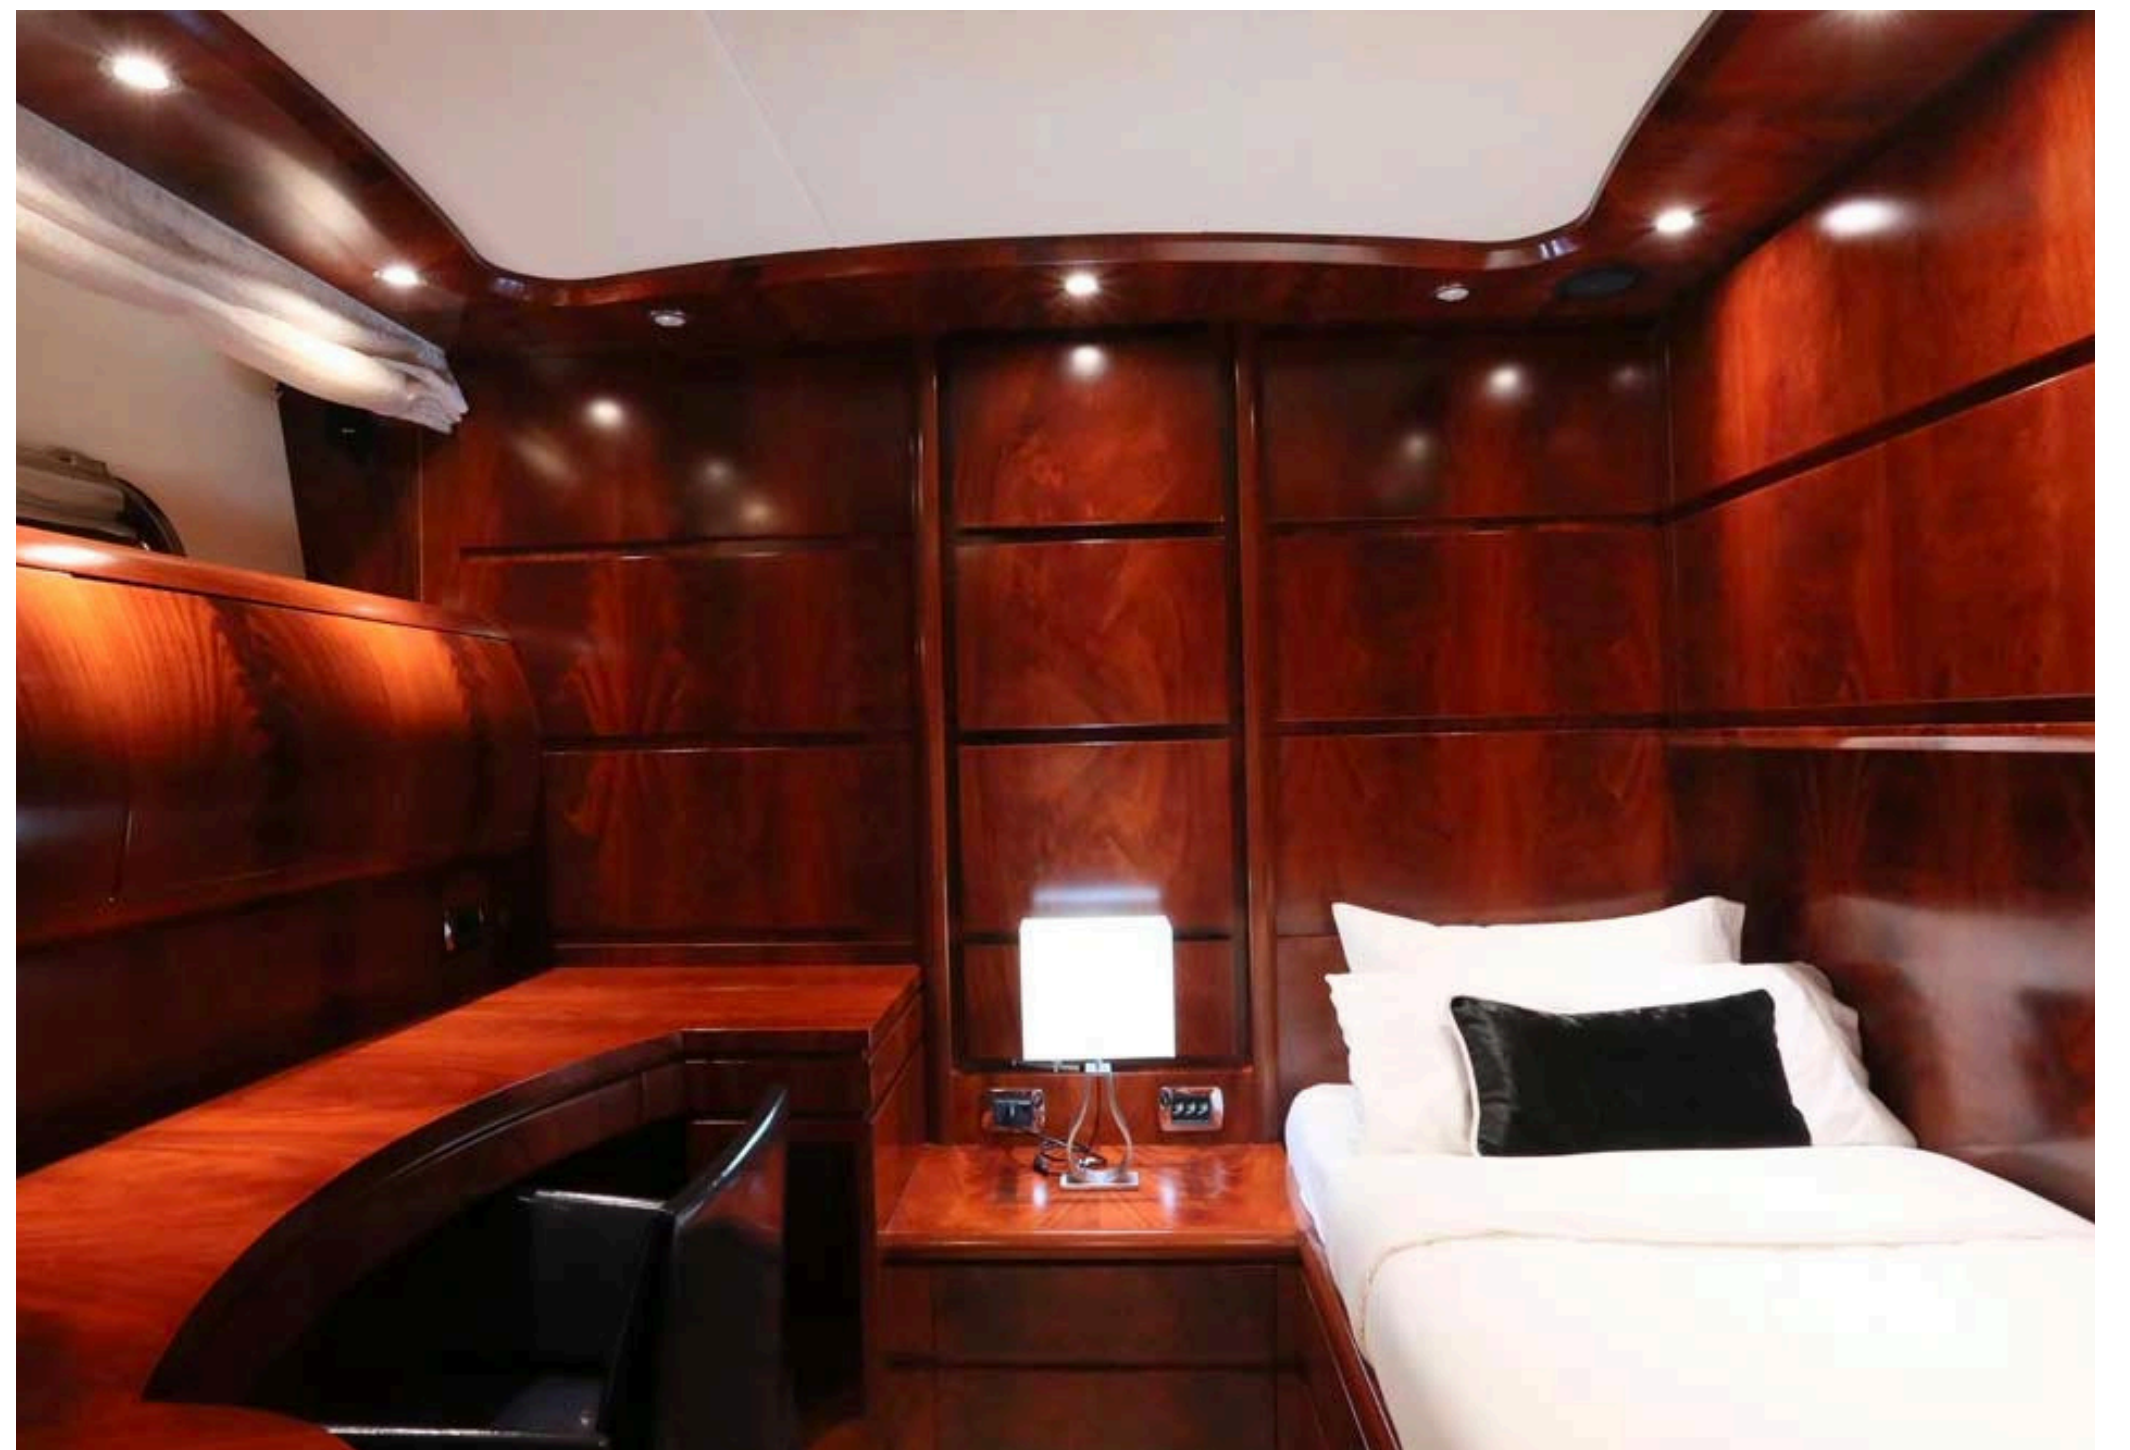

For your eyes only interior layout features four cabins and has the full-beam master stateroom positioned amidships, with a particularly large en suite. There's a VIP double forward, and two guest cabins, one of which is a single with a study, and the other is equipped with two twin beds and a Pullman berth. The Captain's cabin is on the main deck and can be used for guests if required as well. His flybridge is a great space for entertaining or dining, and offers a fantastic vantage point whilst underway. There are cushioned sun pads for relaxed lounging up on the bow and on the aft of the main deck you'll find a large dining table.
